It's Getting So We Can't See a Touchdown Scored Without Wondering if Player's Wife Is Watching

Will Bemoans Condition Existing Upon the Gridirons of Army.

BY WILL ROGERS

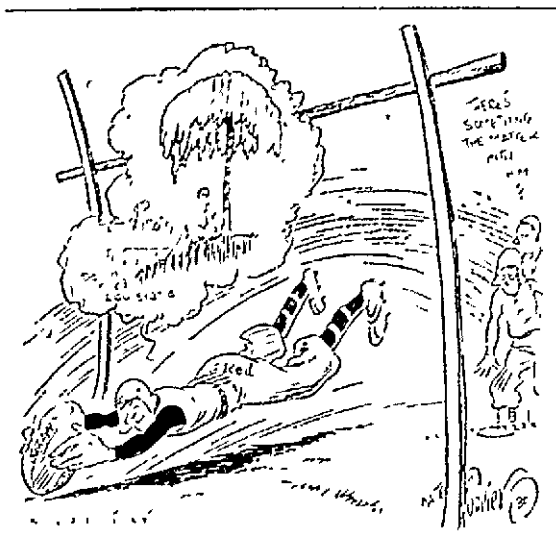
WELL all I know is what I read in the papers. The last week or so we did have some outside diviltment to take our minds off the usual routine. The most diverting instance was the secret service discovering the fact years after it had happened that our Great Football player, Red (Christian) Cagle had grabbed a wife under his arm and streaked through the whole Army regulations for a Justice of the Peace. This event took place years ago, in fact the year that Dewey entered Manila, but the Army has been all this time finding it out. In fact they dident want to find it out till after the football season was over Because with Red off their football team, they would have looked about like Harvard, or Yale or Princeton, or some of those other second division teams Notre Dame would have sent in Saint Marys against 'em.

Seems that Red was down home on a vacation one time, and he run onto a mighty pretty girl. He had his cape thrown back so the red lining showed, and to this Southern Belle it looked like General Lee. Red figured out there wasent much else to do on a vacation so he thought he better marry her. He dident want to go away and leave her at the perils of those other old Boys down in the cane breaks. He dident know that when you went to West Point you wasent supposed to be accompanied by a marriage certificate.

Gets Mind Off Football

But the Army dont want you to have any entangling alliances. They figure it gets your mind off football if you have a wife to worry about. They dont care how much you worry about single Girls. You can keep your self busy over in Battle Row down the Hudson that makes the "Hops" every time the gates are left open, but they dont want you to have your mind at far away as Louisiana.

Well this marriage seemed to just



He was thinking of that schoolmam

practically ruin him. Up to then he had been a Substitute on the Plebe team, and had never been between the Goal Post in his life. But after he come back from that vacation why he went plum loco. There just wasent any controlling him. He would'nt more than get his fists on a Football than he would light out, and run plum off with it. Every time they would hand him the ball he would start for Louisiana to show it to his wife.

The Army hadent seen any such foolishness as this. It was against all Army Regulations. They do everything by orders. You breathe by manual, you sleep by tactics, and eat by regulations. Well they knew there was sumathing the matter with this fellow because he was so different from other inmates. Instead of making just a gain, he would make a touchdown.

Red Was the Army

Then they commenced advertising him. They said here is a Guy that will get us some money at the gate. He was Red headed; that made him pick up where Red Grange left off. So the first thing we know he was better known than the whole General staff. The Army had a War College, but nobody knew where it was. But every ten year old child could tell you where Red Cagle was playing every Saturday. Why when the Army played Notre Dame in New York as many people come to see Red, as did to see Notre Dame play football.

The Army had a drawing card. Nobody knew who the Secretary of war was, but immigrants could tell you what Red did against Harvard. You could have left it to a vote of the entire U. S. who they'd wanted to see carry the ball, Cagle or Coolidge, and Red would have won. The Navy quit playing the Army until Red was outlawed by the statue of limitations. They said, 'We will play the Army but we won't play Cagle." It looked like for awhile it would be Civil war between the two branches of our service. They was going to quit playing football and go to fighting. It looked bad. Congressmen and Senators were losing their tickets they were cadging for the game. Even the President says Boys will you please play. But the Navy says, "No, not while that fellow is going against all the formula's of Military and Naval tactics."

When Fans Were Deceived

You see they knew there was something the matter with him but they dident know what it was. They dident know that it was matrimony that was spurring him on to these great deeds. And the thousands and thousands of people that were paying and fighting to get to see him, neither did they know that they were being deceived. They were paying their good hard earned monies to see fine young unattached manhood battle it out on the field of educational bounce with no undue advantages taken by any one. They looked on it as a fair fight, with no one having an advantage. Little did they know that this Hero that they were cheering at that very moment dident have his mind on the Army and its great and glorious tradition but that he was sneakingly thinking of this little schoolmam away down south under the shade of the old oil Turpentine trees. They dident know that he was deceiving not only the great Government but the poor taxpayers who had used their influence with Washington to get tickets to get into the game. Had they known that this Boy had a wife of many years standing they would have risen up in righteous wrath and maby tore the grandstand down.

Don't Want Married Men

And what of all the thousands of fair young things with roughe, and lip stick, what of them? Hadent they come with palpitating hearts to see this Hero grab a Harvard man and throw him not only for a loss, but out of the park? Here was rank deception being practiced before their young gun shouted eyes. Who would pay money to see an old married man do something? It was taking the romance out of the great game. How could you make an Idol out of a Husband? Wasent College Used on Football? And wasent football based on finance and romance? What does a hundred thousand people care what happens to a married man? And besides hadent he cheated the Government? Hadent he got an education all the time making them think he was a fine worthy upstanding single man when at heart he knew that he was married and unworthy of Government support? Did he think the Government was going to go round trying to educate married men? Their marriage was their education. So it just looked like the case of Benedict Arnold. I dont know what they will do with him. I suppose they will lynch him. He has just soundly spoiled Football for a lot of us. We will never see a man make a touchdown now that we wont wonder if his wife is watching.

Marion To Pay Tribute to War Dead in Church Services

Civil War Veterans Will Honor Comrades Sunday

Cooper Post, G. A. R., Plans Annual Memorial Program To Be Held at First Presbyterian Church, Rev. H. L. Olewiler To Preach; Other Sermons on Program.

Memorial day, May 30 will be observed with fitting services in Marion churches Sunday, centered about the activities at First Presbyterian church.

First Presbyterian church will be the scene of the annual services of Cooper Post No. 117, Grand Army of the Republic. Patriotic organizations over the city will join with these veterans of the war for union, in honoring the memories of all their comrades who have gone before them, and especially for those who have died in the 12 months since last Decoration day.

The Rev. Howard L. Olewiler, pastor of the host church will preach on "The Living Memorial."

Commander Charles Wiley of Cooper Post said Thursday that because of the short distance from the court house to the church the veterans would march Sunday, although cars will be provided for those who would like to participate in paying their respects to their dead comrades but who could not walk the distance.

Patriotic orders designated as taking part in the parade are Woman's Relief Corps, Daughters of Union Veterans Ladies of the G. A. R., Boy and Girl Scouts, Spanish War Veterans, and the American Legion.

Cooper Post will go through its Memorial day ritual, which includes the advance of the colors and salute to the flag, roll call of the deceased by Commander Wiley and short talk by Col George B. Christian.

The Rev. James M. Fisher, director of Lee Street Presbyterian church, will preach Sunday night on "Memorial Day." The Rev. Lawrence A. Wood will preach Sunday morning on "Lest We Forget."

"Qualifying as a Soldier" is the subject of the Rev. W. Martell George for his morning sermon at Wesley M. E. church.

Memorial Day Poem

GOD SAVE THE FLAG

BY OLIVER WENDELL HOLMES

"WASHED in the blood of the brave and the blooming,
Snatched from the altars of insolent foes
Burning with starfire, but never consuming,
Flush its broad ribbons of life and rose

"Vainly the prophets of Baal would rend it,
Vainly his worshippers pray for its fall.
Thousands have died for it, millions defend it
Emblem of justice and mercy to all

"Justice that reddens the sky with her terrors,
Mercy that comes with her white-handed train,
Soothing all pain—soon redeeming all errors
Sheathing the sabre and breaking the chain

"Borne on the deluge of old usurpations,
Drifted our Ark over the desolate sear,
Bearing the rainbow of hope to the nations,
Torn from the storm-cloud and flung to the breeze

"God bless the Flag and its loyal defenders,
While its broad folds o'er the battle-field wave,
Till the dim stars—wreath rekindle its splendors,
Washed from its stains in the blood of the brave!"

Pentecostal Power

A SERMONETTE

BY GEORGE E GROVES
Pastor Central Christian Church

Text:—"When the day of Pentecost was ...come."

PENTECOST was a day of outstanding importance in the history of the early church. Prophecy was fulfilled, prayer was answered, Christ was vindicated, the Holy Spirit was given, the gospel was preached, pardon was proclaimed, men were converted and the church was established.

The year 1939 marks the nineteen hundredth anniversary of that event. The fifty day period beginning on Easter and culminating on Pentecost, the eighth of June, is being utilized by churches all over the world, in making a special spiritual preparation, to so observe the day as to grasp its deeper spiritual realities.

As we study the events that transpired on the day of Pentecost and great achievements of the early church, let us observe closely the things that gave them their power. These are the elements that will give "power" to the modern church.

Power of unity. "They were all together." For the first two or three centuries this was true of Christ's followers. They conquered the world. Today the church is divided into more than a hundred groups. A unified church today would increase its power many times.

Power in concentration. They were all together "in one place." Regularity in attendance would today increase the efficiency of the church to a marvelous degree.

Power in prayer. Pentecost was preceded by a ten day prayer-meeting. Prayer brings us in touch with God. When this connection is established, a man has a super-human strength. "Men ought always to pray."

Power in obedience. They obeyed the command to "Tarry at Jerusalem." They put the kingdom first. Jesus was their Master. Self-denial is a road to power today for the church as it was in the first century.

Power in a daily walk with Christ. "They took knowledge that they had been with Jesus" is a significant remark made by an early persecutor of the church. The closer our walk with Christ and the higher our standards the greater our power.

As we approach this season when we celebrate the anniversary of the beginning of the church may we find the deeper spiritual realities that made the first Pentecost possible, and find again the roads that have always lead to spiritual power.

Daily Proverb—"He conquers twice who conquers himself in victory."

There may have been a time when senatorial primaries were largely political, but in recent years the practice seems to have been to make them largely financial.

Bishop James Cannon, Jr., of Virginia, has been reelected to the board of temperance and social service of the Methodist Episcopal Church South, which goes to show that there are some people still wedded to their idols.

The assistant health commissioner of Chicago predicts that that municipality, by 1940, will be "America's champion city in health and longevity." The doctor is our entry for the distinction of being the prize blown-in-the-bottle optimist of the world.

Unable to transact business owing to the absence of a quorum, the senate adjourned Thursday afternoon, but, of course, it isn't every day that Washington plays a double-header on the home grounds.

A dispatch from Springfield, Illinois, predicts a fight in the General Federation of Women's Clubs over the wet-or-dry issue. If it materializes, the battles fought thus far by wets and drys are liable to be reckoned as nothing more than mere incidents. One just naturally has to shudder over the possibilities.

Dial phones have been ordered out of the senate wing of the capitol and the senate office building. Well, come to think of the thing, it is going a bit far to expect a senator to go to the physical exertion necessary to dial a phone.

Apprehended Sunday as he was about to bomb a Chicago coffee-house, a former convict was tried and sentenced to from one to twenty years in the Joliet penitentiary, Thursday. Chicago is actually picking up speed in the handling of her criminal cases.

What puzzles us is how Miss Eva Jane Leatherman, of the University of Wichita, ever was able to win the co-ed archery honors of Kansas without donning a one-piece bathing suit to face the target, or at least going bare-legged. Why, the pictures show that she actually was clothed!

On previous visits, the Graf Zeppelin had the use of the landing station at Lakehurst, New Jersey, free of charge as the guest of the navy department, but on her present trip her owners will be compelled to pay $3,000 for the preparation of the station for her reception and $2,000 for each day she remains in the hangar. It cost real money to make the dirigible mare go even when she doesn't go.

Senator Couzens, of Michigan, holds that the defeat of Senator Grundy in the Pennsylvania primary was a vindication of the "wild jackasses" of the senate. The senator is overestimating the powers of the Republicans of the Keystone state. They are not miracle workers.

The $50,000 flagpole which is to be erected in Union Square park, New York City, by the Charles F. Murphy memorial committee, is to commemorate, the world is now told, the 150th anniversary of the signing of the Declaration of Independence. That's a bit different from a big monument, topped by a ninety-foot pole, which would dwarf the Washington, Lafayette and Lincoln monuments in the park, as a memorial to the former Tammany boss.

Tribute to the Workers.

Marion owes a debt of gratitude to the workers who, in addition to giving of their means, gave so freely of their time in soliciting contributions to the Community fund.

No one other than those who have made such solicitations can realize how much tact and diplomacy, in addition to hard work, not only in making such a canvass, but also in catching up with business duties neglected as a result of it, is necessitated by such a canvass as was made this week.

And we would fail in doing justice to the woman workers did we not pay tribute to the enthusiasm with which they went about the work assigned to them and the persistence they demonstrated in accomplishing it. In the natural order of things, their territory could not be anything like so productive in return as that given the men workers, and the women realized the fact, but they went out and covered it faithfully and well, and it may be said for them that they remained out the first morning of the campaign despite weather conditions which caused some of the so-called sterner sex to show for a time a degree of hesitation.

Concerning Water Rates.

Thus far, the Star has been content to observe the reaction of citizens to the proposal to acquire the plant of the Marion Water company as a municipal enterprise and the published expressions alike of those favoring and those opposing the proposal. Statements have been made by both the proponents and opponents which will not bear investigation, but they have not been such as to cause us to feel that they justified comment on our part. However, this paper is not content to remain silent when it notes statements, intimations or surmises which can hardly do other than mislead the public and possibly cause it to take action under a misapprehension.

Four of the nine members of the local councilmanic body who made statements through the medium of Friday's Star directly or indirectly held out the idea that the purchase of the water plant by the city would work a reduction in rates, and one of them, Member Prettyman, introduced his statement by saying: "Since the proposition looks toward lower water rates within a year or two * * *."

As a matter of fact, the proposition doesn't do anything of the kind. We do not accuse any of the members of council of bad faith, but we do say that their hope has probably led them into a misapprehension. As a matter of fairness to the representative of the investment brokerage house responsible for the bringing-up of the matter of buying the plant at this time, it should be said that, in response to a direct question put to him at a time when he was explaining his plan to a group of citizens, he very frankly stated that a promise of reduced rates to domestic consumers or to the city could not be utilized in advocacy of the plan, for the reason that there was little likelihood that rates could be reduced under the plan for years to come. And a moment's consideration should show why they can not be.

It is not a betrayal of any secret to state that the Water company has suffered a heavy loss in patronage for one reason or another, its present rates being among them. Under present conditions it is able to maintain and operate its plant, meet interest charges and other fixed obligations and have left a very modest balance. But it isn't proposing to pay off all its obligations within twenty-five years and have its plant absolutely free of debt.

If the Water company's operation of its plant brings no better return under present conditions than we are informed on a valuation of approximately $900,000, it may be said that there isn't the slightest chance that the city can take over the plant at a valuation many hundred of thousands of dollars higher—anywhere from $1,500,000 upward, including the fee charged by the investment brokerage house for handling the transaction—maintain and operate the plant, maintain an emergency fund and finally free it from debt in twenty-five years at lower rates than those at present in effect.

Let the champions and opponents of the purchase plan continue the discussion of it, if they will, but let us hope that the holding out of reduced water rates as a method of making converts to the proposed plan will be discontinued.

The proposal as plainly and specifically set out to this paper in no way contemplated a reduction of water rates until, possibly, the obligations of the city under it had been so reduced as to justify consideration of lower rates.

Sixteen of the twenty-eight "public enemies" presented in the "Who's Hoodlum" list of the Chicago crime commission, April 23, have been arrested since that date and nine are now awaiting trial. There may be merit in the "Who's Hoodlum" idea after all, despite the jeers attending its publication.

Worth Thinking Over.

Representative Tinkham, of Massachusetts, bringing out the fact that John D. Rockefeller, Jr., for the last four years has contributed about a tenth of the income of the Federal Council of Churches of Christ in America, which is "lending what influence it possesses to have the United States join the League of Nations," stated that "it is well known that the large international oil interests, international bankers and large international business interests are profoundly interested in having the United States change its foreign policy for their purposes."

Here's something worth thinking over by the people of the United States who are constantly being propagandized to agree to international dictation in the handling of their affairs.

Telling the jailer out in Colorado Springs, Colorado, that he had been acquitted at the morning session of the district court there of the charge of having stolen an automobile, a prisoner took his cap and walked to freedom, after stating that he would send back for his other possessions in the jail. We'll say this for that jailer; he's not naturally one of those people everlastingly given to suspicion.

A headline over a New York story telling how a Hoosier millionaire was made to pay $6,971 by the customs people states that he was assessed that amount as a penalty for "customs negligence." It strikes us that there was anything but negligence on the part of the customs people.

This old life of ours is full of disappointments, but few of them cause the depth of anguish felt by Clevelanders over their failure to get more than a census marking of 901,482, almost 100,000 short of the population of the million on which they counted.

A seaplane is being designed for transatlantic travel by the Rumpler Motor Works people of Berlin which will have a sailing radius of 5,000 miles, be driven by ten 500-horsepower engines, have a length of 160 feet and a wing spread of 259 feet and be able to carry a crew of eleven and 120 passengers and express baggage. Who can tell? The dirigible may become obsolete for transatlantic travel before it is given a thorough try-out.

AN INTERNATIONAL LANGUAGE.

The vice president of the Radio Corporation of America told the International Auxiliary Language association the other day that the linking together of people by radio made an international language more than ever necessary.

Another speaker at the same meeting pointed out that more than 300 international conferences held annually further emphasized that need. Accordingly efforts are to be made to encourage co-operation between the advocates of existing "international languages"—which practically nobody speaks. Among these were cited "Esperanto, Ido, neo-Esperanto, occidental, novial and Latin without inflection."

Statistics are not available as to the number of individuals employing any one of these synthetic tongues with ease, but it may be doubted whether they number as many as 10,000. The partisans of each are as devoted to their chosen language as are either French, Germans or Spanish to theirs. It may be as hard to secure a centering of the reformers on one international language as it would be to get the peoples of western Europe to surrender all forms of speech, save French or German.

Meanwhile natural development is providing a real international language. It is authoritatively estimated that English is now spoken by 150,000,000 people in the world, while 60,000,000 more to whom it is not their mother tongue have some knowledge of it. It will take a long time for the advocates of Esperanto or Latin without inflection to overcome this lead.—Christian Science Monitor.

A CANADIAN VIEW OF REPRISALS.

Even as late as the commencement of the present session of parliament statements of ministers warranted a feeling in Washington that Canada was prepared to be kicked into a jelly before considering defensive measures. Such statements were not, of course, in accord with the spirit of the Canadian people. They were, as the government was fully aware, in a temper to adopt stern measures, not as reprisals, but in defense of Canada's trade, which is her economic life blood.

A stern warning any time in the last ten years would probably have prevented many of the tariff measures since adopted by the United States. It would, at least, have prevented the severity of their application to Canadian products. That warning never was given. Our response to the steadily-rising American tariff has been as steadily to soften the Canadian tariff against American products. We have turned the other cheek, not once, but several times.

And now, after this final proof of American determination to shut out Canadian products that are in the slightest degree competitive, what have we done? We have gently slapped Uncle Sam on the wrist. We have put in "countervailing" duties—which are bad in principle any way, and dictated as open reprisals—against a few minor articles of trade, principally food products. We have not touched the substantial items of American trade except a few items in the steel schedule, and it is quite uncertain how these will work out.—Winnipeg Tribune.

A RICH MAN'S GAME.

The primary system has not worked out in the manner its proponents prophesied, and, in that respect, it has but followed the way of most reforms. Its advent was hailed as the greatest political boon of all time, for it was to free us from the political boss and give the underdog a chance, but to our way of thinking it has had the opposite effect. Poor men can no longer aspire, with any hope of success, to offices of a state-wide nature. Recently the people of Illinois held a statewide primary and one of the candidates for United States senator spent $250,000 to secure nomination. What chance has a poor man in a contest of that kind? Another very serious objection to the primary is that it permits any one to run who has the price of filing, and the voters have very little opportunity to secure information as to the qualifications and character of the several candidates. While the old convention system undoubtedly had its drawbacks, it at least gave us candidates who were big enough for the job, and that is more than we are getting under the primary system in many instances. Would it not be a good idea to return to a modified convention system which would free us from the yoke of mediocrity, as well as from boss rules?—Wadena Pioneer Journal.

Skin Inflammation.

BY ROYAL S. COPELAND, M. D.

There are many forms of inflammation of the skin. Eczema is one of the most common of them. Infants suffer from it more than from any other skin trouble. It is a very uncomfortable thing to have.

It usually indicates a poor condition of the digestive tract. Any digestive disturbance may bring it on. In the case of infants, it may be caused by irritation of the clothing, too strong soaps, or cold, damp winds.

Like almost every inflammation, eczema begins with a redness of the skin; then small blisters appear and break, followed by a scale or crust. There is terrible itching, and a baby may scratch itself badly, causing infection, unless the finger-nails are kept very short.

It most often happens on the face, though other forms attack the arms, legs or body. The hands may be the seat of trouble.

Eczema of the scalp in babies may occur before or after weaning, and pain and soreness of teething may come with it. The constant irritation may wear the baby out. Fresh milk, beef juice and a little orange juice daily should cure the worst cases.

Adults in a run-down condition are apt to have eczema. It may be the outward signs of a poorly working stomach and intestines, or it may mean that the kidneys are not operating properly.

No matter whether it is the young child or the adult who is afflicted with this trouble, the first thing to do is to regulate the bowels. The diet must be looked into thoroughly and corrected. In infants, diet is of especial importance. Fat must be reduced and constipation corrected. Probably something in the food will have to be changed at your doctor's direction.

Too highly-seasoned food or alcoholic stimulants may produce this skin disease. Any excess in the diet must be overcome before a person may expect to cure the eczema.

The local treatment for infants and adults is about the same.

There are many persons who have sensitive skins. In such cases nothing but the purest water, such as distilled water, should be used, or water softened by the use of borax. The mildest soaps should be used.

In eczema the thick crusts which form may be removed by using a poultice made of boracic acid and starch. Make it into a paste by mixing four tablespoonfuls of starch and one-half tablespoonful of boracic acid with a little cold water. Stir until the powders are dissolved. Then pour on one-half pint or more of boiling water and stir briskly. When cool spread a little on gauze or thin, clean cloth and apply. After a few hours the crusts will be softened and the poultice can be removed without irritating the tender skin.

For the distressing itching which comes with eczema, ordinary baking soda and water will relieve it in a solution for outward application. One tablespoonful of hyposulphite of soda to a quart of water makes an excellent solution for outside application.

Your doctor should direct the internal medication and the right diet for you. You should help yourself to the extent of getting a lot of exercise, fresh air and sunshine, as well as plenty of sleep and rest. These are the prime essentials to health.

In the cases of eczema of the scalp in babies besides cutting the nails to prevent injurious scratching, the hair should be cut and a thin muslin cap and bonnet made to protect the head. Use no water at all on the head, but use drying powder freely—boric acid powder or starch. When scabs begin to loosen the scalp should be covered with a good astringent lotion. This and the right food are the only things likely to effect a cure.

Einstein's Constructive Genius.

BY ARCHIBALD HENDERSON.

Albert Einstein has built up a strong complex structure, which presents extraordinary novelties and weird features. But we are only just now beginning to realize that this is a sound and enduring structure, solidly built upon the foundations of the past.

Einstein has organized our physics into a coherent structure and united gravitation and acceleration, physics and electromagnetism in one grand, unitary scheme. Einstein is not a rebel, a revolutionary, an iconoclast. He has, in fact, related together and subsummed in one relevant system Maxwell's field theory of electricity and Newton's universal law of gravitation, itself generalized and rephrased as a field theory. He has shown the interrelationships of mechanics and physics, electricity and electromagnetism.

It may be that a wider generalization than Einstein's, simpler in structure, but including both Newton's and Einstein's theories as special cases, will arise in the future. But until that time arrives—for it is an inevitable future contingency of the first likelihood—we must accept Einstein's conclusions, with all their complexities, peculiarities and apparent impossibilities.

One of the most astounding of tour de forces in the history of science is Einstein's triumph in devising laws of nature, and a scheme for expressing them, which would be independent of the framework or axes to which they are referred. By means of a curious form of calculation, known as tensorial calculus, and the use of reference measures, called Gaussian coordinates, Einstein was able to formulate the law of physics, independently of any particular reference.

The clue to all this may be found in his brilliant surmise that acceleration and gravitation are interchangeable forces, so far as our mathematical equations are concerned. Indeed, except for one striking difference, acceleration and gravitation act almost exactly alike.

In his "New Frontiers of Physics," Heyl makes this quite clear.

Imagine a large horizontal disk capable of carrying an observer, such as may be seen in amusement parks. Let the disk be covered by a large dome-shaped lid, so that the observer within can not tell by direct observation whether or not the disk is in motion. Suppose the disk is at first stationary. The observer, in walking from one point to another in his little world, would perceive no difference between one point and any other.

But let the disk be set in rotation, and though the observer could not directly perceive the motion, he would become aware of a difference. At every point of his space except the exact center he would experience a force repelling him radially outward, and the greater the distance from the center, the greater the force of repulsion.

He would, in fact, be living in a sort of turned-inside-out gravitational field.

This "force" of repulsion is, however, purely inertial in its nature. As such, it does not originate at the center of rotation, but in the observer himself, and consequently no screen erected between him and the center can diminish the force he feels.

Here we have an illustration of how a motion of a system may give rise to something simulating a gravitational field which disappears when the motion of the system stops.

Einstein made the brilliant observation that a gravitational field, so far as its effects are concerned, is equivalent to an inertial field. In this fertile assumption lies the germ of generalized relativity. — Copyright, 1930, International Feature Service, Inc.

Writing to an American, Dr. Einstein says people must never forget that "the fruits of our labor do not constitute ends in themselves. Production should make our lives beautiful and noble and we should not permit ourselves to be degraded to mere slaves of production."

Something is all wrong with life when we do work which we do not enjoy under conditions which give us no contentment and no happiness. When that is the case we are indeed only slaves of production. Fortunate are the boys and girls who are coming out of school in these commencement days and who know what they want to do. Loving their work, they will do well.

After a survey of leading large city newspapers a sociologist reports that crime news makes up but two per cent. of all the news in the paper. And this survey included 167 newspapers, so it is a fair average. And now comes a New York judge who tells us that in the light of these figures perhaps newspapers do not deal fully enough with crime. It has long been known that English newspapers print crime news in far greater detail. Justice Sweedler concludes:

"Newspapers are the best links between the citizen and the courtroom. News is the most effective of teachers and for that reason it should be prepared and printed with tact and wisdom. The responsibility of the newspapers is stupendous and on it rests the reputation of a nation and that nation's public opinion, ideals, and common decency.

"There has been some criticism of the press as unfair. I do not believe that such criticism is justified. As a whole, newspapers are accurate and speak the truth. They would not exist for long if it did not. Nor do I agree with some that the printing of crime news is an incentive to crime. Rather, I think, it is a deterrent. It makes people think and some good generally comes from their thinking."

News dispatches tell us Spain has lifted the ban on political activity. Meetings, banquets, speeches by friends of republican government, may be had. There is still to be a censorship. Probably that will be lightened, perhaps lifted. Men and women in Spain will speak their feelings about government. King Alfonso is wise. He knows people. He sees the light. He does not wish a republic. Doubtless he wishes to remain a king. And so he doesn't try to keep the people from talking. He lets them get it out of their system.

Just Things

BY EDNA S. DUTTON

The G. A. R.

Wouldn't a lot of folks get a big kick out of a real old fashioned Memorial day celebration? The kind that the band gets out bright and early in the morning, plays all day with the exception of time out for a picnic dinner; speeches from the littlest bewhbboned potential Mary Pickford to the oldest vet; a trip to all the cemeteries in the neighborhood with the sample wagon leading the caravan, and bunting and flags galore. The line of army bluecoats is thinning and in years to come who will there be to see that General Logan's order and the Gettysburg address are read and who will remember, much less know how to sing the old war songs? Memorial day, according to records was started in the late 60's by the Grand Army of the Republic, that nation wide organization of the Boys in Blue.

Shoppers

Folks on the opposite side of the counter from the customer must have a great deal of self control. Just what would you do if some one came in and parked their bundles, purse and the accummulation of a day's shopping onto your nice, highly-polished table? To be sure there is a chance that the tradesmen are going to take some of your money but after all aren't they entitled to a little bit of consideration? Looking at the lingerie, who doesn't park purse, gloves and what not on the table. Going into a jewelry store the other day to get a watch which was being repaired, ye scribe lay a couple of magazines, several papers and a trunk-sized purse with a metal clasp on the beautifully polished glass showcase. It was a safe bet someone had to lay on a little elbow grease again after the conglomeration was picked up again. And what does the window shopper do? Puts a forefinger or mayhap a whole hat onto the window, and I have even seen them press no alabaster brow against the pane in order to get a better see.

Vacations

Vacation time lurks just around the corner again and it is the old racket of having only one nickel to spend. If one stays at home, one wishes they had gone some place and going some place, one returns with the solemn vow of never going any place again. The biggest kick is reading the travel ads. It's really surprising how many places one can go by just writing here and there for booklets on tours and by the time the vacation money is really spent on little jaunts hither and yon, in one's mind it went thousands of miles. Well, so much for a good imagination.

Fidelas Club Elects Officers at Meeting

Miss Marjorie Long was elected president at the meeting of members of the Fidelas club, of Fair Memorial Baptist Sunday school, last night at the home of Miss Enid Spain, Davids st. Miss Thelma Knight was elected vice president; Miss Louise Morris, secretary; Miss Hazel Niggemeyer, assistant secretary; Miss Enid Spain, treasurer, and Miss Laura White, assistant treasurer. In a contest honors were awarded Mrs. Delbee Dane and Miss Marjorie Long. Miss Letha Collins, of Broadway, was a guest. Lunch was served. Community Club Closes Season; Views Building

Members of the Southside Community club closed their season with a program, installation of officers, inspection of the new addition and a social hour last night at the Pearl Street school building. Mrs. Catherine Dennis Smith, president of the city Parent-Teachers council, installed the following officers for next year:

Mrs. J. F. Neldhart, president; Mrs. Troy McClure, vice president; Mrs Frank Tibbals, secretary; Mrs. George Prettyman, treasurer.

The school orchestra, made up of pupils of the fourth to the seventh grades inclusive, was heard for the first time, playing three numbers, "Minuet," Mozart; "See the Conquering Hero Come," Handel, and "Old Time Dance," Desmarets. The orchestra is under the direction of T. R. Evans, music supervisor in the schools. A short talk was given by Superintendent George A. Bowman on the school building program. Following the program the rooms recently added to the building were thrown open for inspection and a social hour was enjoyed. A number of exhibits of the work of the pupils were also in display in the rooms.

Members of the orchestra are Wilbur Shannon, Hubert Goerlich, Frederick Gelbaugh, John Neldhart, Virginia Albert, Margaret Stofer, John [illegible], Esther Spano, John Thibaut, [illegible] Myers, Mary Morer, Virginia Gilbert and Virginia Freshour.

WAR VET AND 4-DAY BRIDE FOUND DEAD

Man's Ill Health Blamed for Murder and Suicide Pact

GIRARD Ill May 24 — Despondency over ill health was blamed today for a murder and suicide pact which culminated here last night when William Cochrane Murray Toronto war veteran shot his bride of four days to death and ended his own life with a bullet in the temple

Police found their bodies in their automobile here where they had parked in a favorite lovers trysting place on the shore of Lake Michigan The man's right hand clutched an automatic pistol and his left hand held that of his bride

They were identified as Mr and Mrs William Cochrane Murray of Toronto Ont and were registered at a Chicago hotel They had arrived here Tuesday

Investigation disclosed that the young bridegroom a veteran of the World war had suffered an attack since the couples arrival in Chicago The physician who attended him said Murray had indicated that he had not wished his bride to know of his condition and seemed depressed that she had discovered his ailment He had apparently been gassed while overseas

The entrance in which the couple was found led police to believe they had planned and agreed on dying together

STEPMOTHER FOUND GUILTY OF MURDER

Pennsylvania Woman Convicted in Fatal Burning of 11-Year-Old Girl.

COURTROOM, ERIE Pa May 24—Mrs Edna Deshunk Mumbulo early today was found guilty of second degree murder for the burning to death of her 11 year-old stepdaughter Hilda The jury deliberated for 10 hours before announcing their finding Counsel for the woman immediately filed motion for a new trial

Mrs Mumbulo took the verdict calmly She seemed almost disinterested as her attorney, William Carney, called for a poll of the eleven men and one woman comprising the jury

The state had tried Mrs Mumbulo on a first degree murder charge for the death of Hilda, who was fatally burned when flaming gasoline was spattered over her while she lay asleep in her bed in the Mumbulo apartment here

Her husband Ralph Mumbulo probably will go to trial on a murder charge in connection with his daughters death in September

Mumbulo and his wife were charged with having conspired to kill the girl, Mumbulo's daughter by his first marriage, in order to share in a $6 000 legacy left the girl by her mother

The girl was killed last March Mumbulo and Edna Deshunk were married one week later in Montrose Pa

MARION TO PLAY COLUMBUS KEYSTONES

CAPITOL CITY NINE BOOKED FOR SUNDAY

Merchants Out for Second Victory of Year at Expense of Colored Outfit.

MARION baseball fans are hoping for a dry Sunday afternoon so they may see the Marion Merchants clash with the Columbus Keystones, colored semi-pro team, in Lincoln park. They are scheduled to play at 2:30 p. m. The game scheduled for last Sunday with the Columbus Firestone Clothiers was rained out so the local team has played but a single game thus far this season. They won this one in easy fashion from the Earl Clothiers of Springfield.

The Keystones are bringing to Marion a lineup which they claim is a great improvement over the 1929 team which won 40 games and lost 11. They are the claimants of the colored championship of Ohio for 1929. Their drawing power lies not only in their ability to play ball but in their amusing antics while on the field.

Williams Leads Visitors

One of the most outstanding players coming to Marion with the colored invaders is Farmhouse Matty Williams who formerly caroted in the outer gardens of the Pittsburgh Keystones, who claim the national colored championship. He will play left field here Sunday.

Others who will do their part to take the first win of 1930 from the Marion Merchants are as follows: Petrie, shortstop, Smith, third base, Womack, first base, Kerner, center field, Jackson, second base, Procter, right field, and Wallace, an outfielder. Dennis will probably do the hurling for the visitors with Boggs in the relief role.

The Merchants will probably start the game with the same lineup that was booked to start last Sunday. Alex Kish has been signed to guard the first sack. He is the only new member of the team which won its first contest, two weeks ago. McCracken and Mackey will form the battery. Kish will be on first, Bacon on second, Ilvor on third and Shoup at the shortstop post. Rowan, Pine and Price will chase balls in the out field.

The game will start promptly at 2:30 p. m.

RAIN STOPS ALL FRIDAY GAMES

All of the four games scheduled for play yesterday in the Industrial league were postponed on account of rain. Of the four none of them except the General Excavator and the Prospect Firemen as much as started hostilities. They played until the last half of the first inning when rain forced them to call a halt to the proceedings. No date has been set for the playoff of the four postponed games.

DISCUSS FORMATION OF INTER CITY LOOP

Five Team Representatives Talk Over Forming of New Hardball League.

Representatives of five baseball teams met in the Y last night to discuss the formation of either a local or an inter-city hard ball league. It was not definitely decided at the meeting which would be done. The interested teams will gather again Tuesday night in Carmela restaurant in Galion for a final discussion. If such a league is formed it will probably play on either Saturday or Wednesday afternoon. Wednesday games would be played around 6 o'clock.

Teams which were represented at the meeting last night are: Huber Mfg Co, Silk Mill, Erie Railroad, Westinghouse Electric Co of Mansfield and the Marion Steam Shovel Co.

Jones Starts Quest for British Amateur Title

By The Associated Press

ST. ANDREWS, Scotland, May 24—Twenty four Americans, including all eight members of the United States Walker cup team, have entered the British amateur golf championship which gets under way here on Monday morning.

Bobby Jones is seeking the only major golfing title that so far has eluded his grasp and Great Britain's finest amateurs will be assembled to repel the American assault.

GAME PROTESTED IN CITY SCHOOL LEAGUE

Oakland School Declines To Accept Victory of Silver as Final.

The first protested game of the spring baseball season among Marion city grade schools has come to light with protesting of the 6 to 5 Silver st. victory over the Oakland school team yesterday. No decision has been reached on the game in question.

In other games of the afternoon Vernon Heights walloped the weak Greenwood team 18 to 1. Pearl st. went even farther and battered the State st. team into submission by a 20 to 1 count. Mark st. defeated the Forest Lawn nine 13 to 7. The final game went to the strong Glenwood team when they beat Oak 11 to 11.

HIGH SCHOOL TEAMS BATTLE FOR TITLES IN SCHOLASTIC MEET

Columbus Central, Three-Year Ohio Track Champions, May Be Dethroned Today.

By The Associated Press

COLUMBUS, May 24—The stage was set in Ohio stadium today for one of the greatest thrills in sport—the downfall of a champion, and the dethroning of this particular champion has been delayed for three years.

Central High school of Columbus, backed by a triennial tradition of superiority in track, trod a thorny path on its road to a fourth consecutive title in the annual state interscholastic meet. Lakewood and Scott High of Toledo, who have been snapping at Centrals heels last year, appeared to have narrowed the gap still further this year and hoped with the aid of Cleveland East Tech to wipe out the remaining margin between Central and the rest of the state.

The tip-off came yesterday when Central placed only four boys in the finals of the dashes and hurdles, their strongest events.

While the track drama was being enacted inside the stadium, state titles in baseball and tennis were at stake on the diamonds and courts surrounding it.

Baseball in Semi Finals

Martins Ferry played Garfield Heights of Cleveland and Woodward of Cincinnati met White High of Toledo in semi-final games for the Class A baseball championship. Solon played St. Paris and Hopedale met Petersburg in Class B.

The tennis singles title lay between Schauser of Cuyahoga Falls who played Musch of Lorain, and Holles of Cuyahoga Falls who faced Carl Bossong of Western Hills, Cincinnati, the runner up last year. Paired in the doubles semi finals were the Cuyahoga Falls boys against Maddox and Shapiro of Cincinnati Hughes and Bossong and Hines of Western Hills against Carney and Saunders of Youngstown Rayen. The Cuyahoga Falls and Western Hills entries were co favorites to win.

A high wind abrogated several record breaking performances on the track yesterday but a rain storm appeared to have left a fast track and favorable conditions for legitimate performances in record time today.

By The Associated Press

CINCINNATI, O., May 24 — Behind sparkling mound work by Austin, Marshall college of Huntington defeated St Xavier's baseball squad here yesterday, 7 to 1. The West Virginia hurler allowed only three hits.

A county public golf course in Atlanta has been named for Bobby Jones.

THE CHAMP

John Pesek, the Nebraska Tiger man heavyweight title wrestling champion is booked to "do his stuff" in a three fall finish match in the Steam Shovel gym Tuesday night. He will battle it out with Gentle John Kilonis, the rough and tough heavyweight. Pesek has just eliminated one of his most persistent foeman, Ad Santell, from his path with a victory over the latter in a match in Columbus earlier this week. Pesek and Kilonis will form the main attraction of a three match card sponsored by Bennie Criswell. Jim Browning and Tom Drake will wrestle in the semi final bout of the show.

ON THE INSIDE

With

Bob Kirkpatrick

THE sports columns of The Star are always open to expressions of opinion or other acceptable communications from readers. This information has been published in one form or another at various times and the invitation still stands.

There is only one absolute requirement. The writer of every communication intended for publication must sign his name and address. This does not necessarily mean that the name is to be published, but the identity of the writer must be made known to this newspaper as evidence of good faith.

We invite criticisms, such as one received this week from a recreational baseball enthusiast who found fault with our manner of reporting certain games. The letter was interesting and would have made an acceptable contribution to The Star's sports page. But it bore no signature and as a consequence could not be published.

* * *

After seeing several city recreational baseball games played on both the Garfield park and Silk Mill diamonds, it becomes more and more apparent that neither of these grounds are in very good shape for a fast ball game. Both are rough but with a little work could be put in good condition. The Garfield diamond has not been scraped this year and the tufts of grass growing in the short outfield make it very difficult to judge a ground ball. We wonder if it would be possible for the city park commission to have the Garfield diamond scraped some time soon. It certainly would help the ball games which are to be played there in the future.

* * *

FOR the benefit of those individuals who may not notice the change in the playing schedule of the Commercial league for next week we are calling their attention to the fact that all games of that league originally scheduled for Memorial day will be moved up to Wednesday preceding that date. Thus all Commercial league games for next week will be played Wednesday instead of Friday.

As for the Commercial league games which were scheduled for play Friday afternoon of this week but were rained out no playing date has been set for them. They will probably be played on the first open Wednesday.

AMERICAN PAIR WIN NEW TENNIS LAURELS

Helen Wills Moody and Elizabeth Ryan Take French Women's Title.

By The Associated Press

AUTEUIL, France, May 24—The powerful American combination of Helen Wills Moody and Elizabeth Ryan captured the French women's doubles tennis championship today, defeating Mme. Simone Mathieu and Mlle. Yvette Barbier of France in the final at, 6-3, 6-1.

The Californians won the title without loss of a single set. Through a bye and default they had to play only once matches and won them all in short order.

Queen Helen, paired with one of the finest doubles players in the world, thus added a second French title to the singles crown which she is now defending.

HEADS FIGHT CARD

Ray Schneider To Box Gene Doyle in Galion Show Tuesday Night.

Ray Schneider, Marion's present chief contribution to the boxing world is booked to fight in the main 10 round go of the Legion boxing show in Galion Tuesday night. Schneider will box Gene Doyle of Mansfield in the headliner of a 52 round mauling card. He will weigh in for the fight at around 150 pounds although he has generally been scrapping at about 145. He is remembered here for his recent short knockout of Sailor Burns in the Steam Shovel boxing show. The show will be held in the Galion armory.

NEW NINE HOLE GOLF COURSE NEAR FINISH; OPENING DATE UNSET

Workmen Busy Completing Greens on New Layout; May Open June 1.

Marion's new and up to date nine hole Mar-O-Del golf layout is rapidly being carried to completion according to the manager in charge of the construction. The Mar-O-Del course situated south of Marion, opposite of the Harding Memorial, promises to evolve into a snappy course that will provide a good nine hole entertainment for any of the horde of Marion golfing enthusiasts.

The actual date for the opening of the course has not been definitely set by the committee in charge. It was originally scheduled to be opened for play on Memorial day but a few days inclement weather delayed plans to such an extent that its opening will probably be carried over until the latter part of the first week in June.

The Mar-O-Del course will not be as difficult perhaps as some of the courses in the vicinity of Marion but it will be sporty enough to furnish a good trial for the club members. New hazards will be added to the course in the future so it will be a constantly changing environment for those golfers who do not care to play the same layout without change.

Although the course as layed out at present is but a nine hole affair enough territory surrounding the first nine holes has been acquired to provide for the second nine whenever the present layout becomes overrounded. It is expected to lay out the second nine holes next summer. That would give Marion its only 18 hole golf course.

Workmen are now at work laying the greens on the new course. Six of them are already in and the other three will be completed early next week.

UNIFORM RULE

Proposed for All Schools of Big Ten Conference in Future.

By The Associated Press

EVANSTON, Ill., May 24—The western conference faculty committee on athletics today considered a proposal for a uniform Big Ten eligible rule.

At present each school has its own eligibility requirements under western athletics may compete in intercollegiate events whether the amendment would be approved was not indicated by members of the group who adjourned late last night. Further discussion of the proposal was scheduled today.

Brooklyn Robins Win To Tie Cardinals for Top Rung; Cubs Beaten.

BY HUGH S. FULLERTON, JR.
Associated Press Sports Writer.

THE St. Louis Browns are fifth in the American league pennant standing, but with the aid of Walter Stewart they get a share of victories.

The club is suffering from weak hitting and weak pitching, ranking at the bottom of the league's club batting averages, but Stewart has developed into a consistent hurler and usually a victorious one. His current record is six victories and three defeats as he proved quite effective against the Cleveland Indians yesterday to give St. Louis a 5 to 4 victory.

Stewart gave Cleveland nine hits yesterday, but few of them in bunches while the Browns made better use of the same number to give Cleveland its third straight defeat and send the Indians down to third place.

The only other scheduled American League game, between Detroit and Chicago, was rained out.

Robins on Top

The Brooklyn Robins again demonstrated the efficacy of slugging in the leading National league contest as they hammered the Braves into a 6 to 3 defeat and again gained the top rung of the league ladder. By winning, they gained a tie with the St. Louis Cardinals, who were "deprived by rain of their chance to stay ahead at the expense of Cincinnati. The Robins made 13 hits, but Walter Berger of Boston provided the slugging feature with his tenth home run of the year.

The Pittsburgh Pirates tightened their hold on third place, by beating the Chicago Cubs, 7 to 6, while the fourth place New York Giants dropped their second in success on to Philadelphia 9 to 8. The Pirates ran into more hard luck as a second pitcher in two days was sent to bed just before he was due to start. Fred Brame was lost to the team through a severe attack of grippe. On Thursday, Steve Swetonic came down with appendicitis.

Nevertheless, Pittsburgh got some good pitching from Heinie Meine, although he gave 11 hits, and better from young Glenn Spencer, who fanned two men in the ninth inning with the tying run on base.

MIAMI PLACES EIGHT MEN IN MEET FINALS

Dee Huston of Denison Ties Own Record in 100-Yard Sprint in 9.6.

By The Associated Press

ATHENS, May 24—Having placed eight men in the finals of the sprints and hurdles during yesterday's trials, Miami university's athletes today were ready to prove to Ohio Wesleyan Denison, Cincinnati and Ohio university that they have the best track team in the Buckeye conference.

George "Dee" Huston, Denison's top notch sprinter who placed in the national collegiates last year and second in the Penn relays "hurdred" this year, tied his own conference record of 9.6 seconds for the 100 yard dash yesterday.

Hutson, Wolfe of Miami, Lambacher of Ohio Wesleyan, and Reuter of Ohio all qualified in both the 100 and 220 dashes. Mears of Wesleyan and Steinhauer of Miami, point winners last year in the high and low hurdles both qualified again, as did Woolwiever of Ohio U. Sweetland of Denison in the low hurdles and quarter mile and Gordon of Miami in the 100 and 440 yard dashes were other double-qualifiers.

DAVIS CUP LINEUP SHIFTED IN FINALS

Flashing Van Ryn Picked To Replace George Lott in Singles Clash.

By The Associated Press

WASHINGTON, May 24—With American zone supremacy safely won through the clean cut doubles victory over Mexico by Wilmer Allison and John Van Ryn, the United States Davis cup team shifted its announced line up for the two final matches.

The flashing young Van Ryn was designated to replace George Lott this afternoon against Ricardo Tapia, 20-year old ace of the Mexican team, whose five set struggle against Allison on Thursday carried him within a few points of victory.

The other singles match will see John Hope Doeg of Santa Monica, California new member of the 1930 American team, opposing Frederick Sendel, 19 year old Mexican.

ATHENS, O., May 24—Ohio university today was assured of a tie for third place in the Buckeye conference baseball standings by virtue of yesterday's 8-3 victory over Ohio Wesleyan.

BIG TEN SPRINTERS IN ATTACK ON WORLD RECORD IN CENTURY

Simpson and Tolan Discard Starting Blocks in Championship Trials

By The Associated Press

EVANSTON, Ill., May 24—Ted Tolan of Michigan and Ge[illegible] Simpson of Ohio State threw away their starting blocks today to try what each hoped would be the fastest 100 yard dash a cinder track ever saw.

In the qualifying trials of the thirtieth annual western conference outdoor track and field championships yesterday at Northwestern university, Simpson and Tolan again established themselves as the pick of Big Ten sprinters—Simpson without the blocks and Tolan, aided by them.

Simpson turned in the best time in the sprints, easily taking his heat in the 100 in the excellent time of 09.7, and Tolan finishing just a easily one-tenth of a second slower—both running in a brisk rain that The Ohio speedster was just as good in the 220, winning his trial in [illegible] while Tolan won his in 21.8 [illegible] was pressed.

Illinois and Michigan were the standout entrants for the title. The Wolverines and Illinois along with Iowa qualified 15 men each in the [illegible] events yesterday.

OLD-TIME POLITICS IN SIGHT FOR OHIO

Developments This Week Show Coming Months Are Likely To Be Lively.

Continued from Page One.

self giving a radio talk Friday night for the benefit of the public.

In his advice to local members throughout the state Brown told the hearers that the principal thing for them to do during the primary and November election was to "obey orders and follow the strict letter of the law."

Brown, Governor Cooper and Attorney General Bettman all agreed that the new election code was good but that any deficiencies it might have would be ironed out in the next legislative session.

Bettman urged the board members to impress upon the voters that the elections in Ohio are being conducted honestly and efficiently.

Highway Patrol Urged

Establishment of the state highway patrol to enforce traffic laws the patrol being under the jurisdiction of the state highway director, and having no authority within municipalities, will be urged by the Ohio State Safety council the organization decided in a session held here this week. The council announced that it would incorporate to strengthen its influence in safety work.

Its charter members will represent labor, urban, industrial, public utilities, auto club highway, insurance and other state-wide groups.

It has been rumored for some time that Harry S. Day, of Fremont, would oppose H. Ross Alt, of Canton, for the Republican nomination for state treasurer. His entrance into the race puts three in the fight for the honor. Mrs. Pauline Buckley, wife of former State Treasurer Bert R. Buckley, whose unexpired term Alt is now serving, announced that she would be a candidate some time ago.

Day was formerly state treasurer and in his announcement hit at both Alt and Governor Cooper in his opening statement. He said that had he been named to fill the place of Buckley when the latter was ousted and sent to the Atlanta federal penitentiary, he would have been willing to step out now.

He hit the gubernatorial appointment of a new man at that time, thus giving him an advantage of two years in office over the aspirants.

War Against Ruth

Other little features of the week in the political news included:

A plea of Mrs. Mary Locke Hurin prominent in Toledo politics and club work, urging Toledo Republican women not to attend a meeting June 12, when Ruth Ranna McCormick is to be the speaker. She objected to the amount of money spent by Mrs. McCormick in her campaign.

Announcement that Mrs. Nettie Clapp, Cuyahoga county representative for eight years, would be a candidate for state senator to succeed Senator Maude Wolfe, who is retiring.

Opening of campaign headquarters at Wooster by John McSweeney, candidate for United States senator on the Democratic ticket.

of burns," Silver declared. "All of them had been suffocated by the smoke before they were burned."

Silver was introduced by W. N. Harder, local attorney, who is a personal friend of the state finance head.

A membership drive will be conducted by the club and the individual who obtains the most new members will be given an autographed photograph of President Hoover, Paul Michel, president of the club, announced. The committee in charge of the drive is made up of Mrs. Emma Uller Voorhees, Walter S. Guthrie, Vernon M. Dutton, Wilbur Pfeifer, Louth Ebbing, Blanche Seitz, Judge Oscar Gant, Clyde C. Caldwell, Harry Gist, of Prospect, Mrs. N. D. Hill and James Sharrock, of Caledonia, and I. P. Robinson, of Morral.

Vocal solos were given by Miss Virginia Fowler, soprano, and Maurice Harold Gast, 12-year-old pianist, played several numbers. Refreshments were served at the conclusion of the meeting.

NO NEW DETOURS

Marion Area Autoists Face But One Detour for Week End Trips

Detours in the Marion area remain unchanged since the last week end, according to the weekly detour bulletin received today from the state department of highways.

A 7.3 mile detour exists west of Upper Sandusky on the Lincoln highway, where the road is being paved, while roadwork at Marseilles on route 47 and south of Bucyrus on route 98 is such that traffic can be maintained at those points.

Marion Men Attend Junior C. of C. Meeting

Ray Ichner, president, Sherman Hahleman, first vice president, and Kenneth Clutter are representing the Marion Junior Chamber of Commerce in a state convention of that organization in Cincinnati today.

The three men left Marion early this morning to attend sessions of the convention today and Sunday.

WAGON CATCHES FIRE

Firemen were called to the city dump yesterday afternoon to extinguish a burning wagon owned by Edward Austin Weaver, Marion junk dealer. The wagon caught fire from burning rubbish at the dump as Weaver was unloading. Considerable damage was done to the wagon.

be the ones to be ready for the next struggle.

"The horrors of the great war appeared to be completely forgotten."

Liveright visited France, Germany, England and the Scandinavian countries.

"I was never so appalled at the intense spirit of nationalism manifest," he said.

"The cabinet members with whom I talked chatted of peace but the measurement of their conversation was by the yardstick of nationalism.

"But one obtained even a better feel of the situation from the man in the street—the taxi driver, the hotel porter, the worker.

"France hates everybody. She is insanely jealous of the United States.

"Germany is not supposed to have an army.

"But I have every reason to believe that every able-bodied youth in Germany is getting military training. Every young boy there is a member of a hunting club. They drill regularly and practice shooting and the League of Nations can't do a thing about it.

"Germany is hungry to get back what she has lost."

4 BOYS IN DISTRICT GET FARMER DEGREE

Three from Prospect Honored at Meeting; Ashley Student Secretary.

Four boys in this district were among the 11 in Ohio to receive gold keys of the State Farmer degree of the Future Farmers of America from the hands of Harry D. Silver, state director of finance, in Columbus yesterday afternoon.

The Future Farmers of America is a national organization, of which Ralph Bender, of Waldo, is a former president. Only two per cent of the state membership may receive the State Farmer degree each year.

Lawrence Bishop, of Ashley, one of the boys to receive the honorary degree, was elected secretary of the organization today when officers were elected.

Carl Russell, of Prospect; Arthur Isler, of Prospect; Walter Ritchmor, of Prospect, are the other three from this district to receive the honor.

All these boys have well-rounded programs of activity in school and their communities. Their election to this degree is based upon records in leadership, scholarship, farming ability and thrift.

K. OF P. LODGES IN COUNTY MEET HERE

Past Chancellor Degree Conferred; Local Lodges Plan Memorial Service.

Members of Marion Lodge No. 302, Knights of Pythias, were hosts at a meeting last night with representatives present from Caledonia, Green Camp, Prospect and Canby lodges. A brief meeting of members of the local lodge preceded the session.

Reports were given from the lodge representatives and talks were given by Grand Chancellor Charles L. Justice and Secretary H. H. O'Dowd. Grand Chancellor Justice presided for the conferring of the Past Chancellor degree on 15 officers. County Deputy E. B. Bonart, of Green Camp, presided for the meeting.

Announcement was made that members of Lodges Nos. 102 and 51 will decorate the graves of their deceased members Sunday, June 1 and a request was made that flowers be taken to 102 hall early in the morning. It also was announced that Lodge will open at 8 o'clock instead of 7:30 o'clock during the summer. The next meeting will be June 6.

"MA" FERGUSON MAY RUN FOR GOVERNOR

First Woman Chief Executive of Texas May Take Place of Husband.

By The Associated Press

AUSTIN, Tex., May 24—Mrs. Miriam A. Ferguson, first woman governor of Texas, today was a prospective candidate again in a field already including 16 men seeking the Democratic nomination for governor in the July primaries.

She had made no definite announcement but her husband, former Governor James E. Ferguson, said yesterday she would replace him as a candidate if he failed in efforts to have his name placed on the Democratic ticket.

The state supreme court yesterday denied him a writ of mandamus to compel the state Democratic executive committee to place his name on the party primary ballots, holding that his impeachment by the Texas senate in 1917 and its judgment that he be disqualified from holding any office "of honor, trust or profit" was irrevocable under the constitution.

Soon after the court handed down its decision yesterday, he announced he would file a motion for a rehearing immediately and if that were overruled Mrs. Ferguson again would replace him as a candidate.

STORM HITS MICHIGAN

By The Associated Press

CLARE, Mich., May 24—Wrecked farms and damaged business places today lay in the windy swath cut through northeastern Michigan by a windstorm late yesterday. The property damage has been estimated at $100,000, but only two injuries have been reported.

FRAUD IS CHARGED IN COURT ACTION

R. T. Lewis Co. Files Suit Asking Cancellation of Deed for Lot.

Charging fraud, the R. T. Lewis Co., real estate operators, today asked common pleas court to cancel a warranty deed issued in the name of Charles L. Miller and Mary M. Miller, to a lot in Elm Heights addition.

The plaintiff declares an unknown man, fraudulently representing himself to be Miller, who is a Cambridge, O., real estate dealer, came here recently, made negotiations for the purchase of the land, and then left the city when he discovered Lewis' suspicions to be aroused.

The man, posing as Miller, had planned according to Lewis, to obtain a loan from a local loan association for the purpose of financing the erection of a home on the property. In order to more easily engineer such a deal he had examination work begun on the property, Lewis declares in his petition.

J. W. Jacoby is attorney for the plaintiff.

To Hear Appeals

Four appeal cases originating in Marion county will be heard before the district court of appeals at Lima on Thursday, June 5, according to word received here. The cases are McDaniel Motor Co. vs. Davis, Blumenschein vs. Rothchild, Owens vs. the Virginia Tennessee Grocery, and Porter vs. the Marion Furniture Co.

Obtain Licenses

Marriage licenses have been issued in probate court to the following:

Walter Dale, 21, laborer, of Pleasant township, and Magdalen Kline, 18, of Prospect.

Nolan B. Almendinger, 26, gas company manager, of Prospect, and Gertrude Brewer, 21, teacher, of Marion.

Joseph Brooks, 33, laborer, of Richwood and June Martha Brooks, 29 of Tallus.

Asks Foreclosure

Foreclosure of a mortgage on property in the Marion Osgood addition is sought by the Home Building, Savings & Loan Co., in a petition filed today in common pleas court. Hayes Thompson is the plaintiff's attorney.

Divorce Granted

A divorce was granted in common pleas court today to Manoah Jones from Mayme Jones on grounds of gross neglect. They were married on Sept. 20, 1910, and have no children. L. E. Myers was counsel for the plaintiff.

Seeks Divorce

John W. Mason today filed suit in common pleas court for divorce from Irena M. Jones on a charge of gross neglect. They were married in Columbus on March 15, 1927, and have no children. Counsel for the plaintiff is L. E. Myers.

Named by Court

Myrtle M. Hastings has been appointed by probate court as administratrix of the estate of Harry E. Hastings.

$24,671 GAS TAX FUND IS RECEIVED

County, City and Townships Share in Division of Money from State.

City, county and township portions of the state gasoline tax were received by the different subdivisions yesterday and today from the state.

The county received $12,000, County Auditor Earl E. Thomas reported today. City Auditor J. L. Landes reported the receipt of $8,921 yesterday, which was placed in the city treasury today.

A total of $3,750 in gas tax money to be divided among the townships of the county was received today by County Auditor Earl E. Thomas.

Grade of 98 Given Morral Pythian Lodge

MORRAL, May 24—Annual inspection of the local Pythian Sisters Lodge was held last night with Mrs. Martha Solanders of Prospect as inspecting officer. A grade of 98 was given. One candidate was initiated in the lodge before visitors from Marion, Forest and Prospect.

Indian Nationalists Stage Demonstration

By The Associated Press

BOMBAY, India, May 24—Indian Nationalists today observed "Dharsana day," making it an occasion to celebrate "victory" there against British police and armed forces, and of mourning for those arrested in the course of the raids against the salt taxes.

A partial burial, or stoppage of work, was in effect in most of the native city. The usual daily raids against the Wadala salt pans were suspended temporarily, but will be resumed tomorrow, it was understood, with a new mass raid.

CARD OF THANKS

We desire to offer our most sincere thanks and kindest words of appreciation to the many friends and organizations for their wonderful service and kindness during the illness and death of our husband and father.

Words we realize, fall short in expressing really heartfelt appreciation and sincerity to loyal friends—expression must come through deeds. With this in mind we hope to be best able to show this feeling by passing on good to others as we have felt and received it ourselves.

Mrs. Leonard Caldwell,
Ruth Eileen and Mary Jane.

MAN, WOMAN FINED ON LIQUOR CHARGES

Arrest Following Series of Raids at Crestline by State, County.

Special To The Star

BUCYRUS, May 24—Two persons, one a woman, were fined by Judge I. Walter Wright here this morning when they were charged with violating prohibition laws following a series of raids at Crestline yesterday.

George Vukovich was fined $100 and costs when he was found guilty of charges of possessing two stills and some home brew. Mary Stanovitch charged with possession of intoxicating liquor, was fined $100 and costs. They arranged to pay their fines.

The raids were made yesterday by state and county officers.

"40 AND 8" TO GET EIGHT NEW MEMBERS

Annual Spring "Wreck" of Legion Organization at Armory Tonight.

More than 100 Legionnaires from Marion and seven surrounding cities will meet at the Ohio National Guard armory on West Church st. tonight to participate in the annual spring "wreck" or initiation of Marion voiture, "40 and 8."

Eight candidates will become members of the voiture some time between 8 and 10:30 o'clock, as the Legionnaires conduct one of their most elaborate initiation services.

The "40 and 8" is called the "playground of the Legion," and consists of Legionnaires who have held membership for at least a year and have performed some outstanding service, such as holding an office, or doing committee work.

Columbus, Kenton, Marysville, Ashland, Mansfield, Bucyrus and Delaware voitures are expected to send large delegations. A buffet supper will be served after the initiation, according to Ralph E. Grubaugh, chef de guerre of the organization.

FALL FILES APPEAL IN SUIT FOR TAXES

Government Asserts $235,325 Due on Sinclair and Doheny Payments.

By The Associated Press

WASHINGTON, May 24—Albert B. Fall, secretary of the interior under President Harding and central figure in the oil investigation of that administration, has carried to the board of tax appeals a government suit to collect $235,325 allegedly due in taxes and penalties on sums of money paid to him by Harry F. Sinclair and Edward L. Doheny.

The former cabinet officer and the government are at odds on a contention of the internal revenue bureau that $100,000 received from Doheny and $305,000 received from Sinclair by Fall, his son-in-law, M. T. Everhart, and the Tres Ritos Land & Cattle Co., were to be regarded as Fall's taxable personal income.

Alleging that these transactions were connected with the former interior secretary's award of leases on Teapot Dome and Elk Hills Naval petroleum reserves, to Sinclair and Doheny companies, the government brought criminal actions against all three.

PETITIONS FOR LINE

The Mansfield Motor Coach Co. today petitioned the state utilities commission for a certificate to operate a bus line between Gambier and Marion, according to Associated Press dispatch. The company proposes to use two seven passenger buses.

APPEALS COURT FREES OHIO RED AGITATORS

Conviction of Woman and Two Men Under Syndicalism Law Reversed.

argued that the criminal syndicalism law was a war time measure and that it was unconstitutional. The decision does not touch on that phase of the question.

Prosecuting Attorney George McKelvey announced that he would appeal the case to the Ohio supreme court for a ruling on the constitutionality of the conviction.

The trio were sentenced to five years' imprisonment each and fined $5,000 each after their convictions last November 20.

NATIVE OF GERMANY DIES EARLY TODAY

Mrs. Caroline Eckman, 86, Claimed at Home of Daughter Near Here.

Mrs. Caroline Eckman, 86, native of Gundershofen, Alsace, Germany, died of heart trouble this morning at 7:15 a. m. at the home of her son-in-law and daughter, Mr. and Mrs. P. F. Roth, Marion R. 1, D. No. 6. She came to the United States from Germany in 1883 and had made her home with the Roth family since that time. She had been ill 14 months before her death.

Mrs. Eckman was the mother of two children, Mrs. Roth and Mrs. Barbara Ruth, of 369 Elm st., Marion. She was a member of Zion M. E. church. John Eckman, to whom she was married in 1863, preceded her in death 35 years ago.

A sister, Mrs. Fred Bey of Strasburg, France survives with the two daughters, 11 grandchildren and 11 great-grandchildren. Mrs. Eckman was born May 20, 1844 in Gundershofen, Alsace, Germany to George and Mary Ann Roth Smith.

Funeral services will be held Monday at 2:30 p. m. at the Roth home in charge of Rev. Karl W. Pate, pastor of the Prospect Street M. E. church. Burial will be made in Marion cemetery.

Marion Bills Good Show

DON JUAN was a mere second-rate lover compared to Don Carlos Jose Rafael Sebastian de Rivero, at the Marion tonight and Tuesday in "Under a Texas Moon."

Frank Fay is capital as "Don Carlos," the dashing young Mexican adventurer who gave jumping beans and stardust to his lovely Mexican girls and won the love of every girl he met.

Don Carlos was a good comedian, assisted by his two henchmen Georgie Stone and George Cooper as Pedro and Phillip, guitar strummers par excellence. Listed among the loves of Don Carlos are Raquel Torres, Myrna Loy, Armida Betty Boyd and Mona Maris, all good lookers.

The picture is in color, set in the beautiful Texas country. Don Carlos and his two men arrive at the Lazy Y Ranch and Don is enamored of Raquel Torres and Armida. He pledges the ranch foreman, Noah Beery, to restore stolen cattle and the rustler sets off with his two men.

He has a tempestuous love scene with an inn-keeper's daughter whose father has tried to poison Don Carlos but falls into his own trap, and rides away pursued by the girl's brother.

After several more violent loves, Don Carlos returns to the ranch with the stolen cattle, pows as the rustler, and rides away with Myrna Loy. Lines are good, Frank Fay is clever with the actions and the girls are all easy to look at. H. H.

Shed Tears for Mae Murray

SHED tears for Mae Murray. Only once in a while in "Peacock Alley" at the Ohio tonight and Tuesday, did the audience get a glimpse of the old provocative tilt of the head, the bee-stung lips and the dancing that made Mae Murray a name to be reckoned with.

"Peacock Alley" is a weak picture. The entire show is given over to proving that Mae didn't spend a night in another man's room, and that if she did, it was all an innocent, friendly visit.

Mae goes to the hotel rooms of George Barraud, wealthy man, who has befriended her when she was a hard-working chorus girl, and tells him she is to be married to Jason Robards, a Texas man. The hotel detective sees her come and go. George loves her and wants her, but not if he has to marry her. She leaves the hotel early in the morning and at noon is married to Robards. They go to the same hotel and the house detective orders them to leave and in minutes that Mae should carry on her work a few blocks down the street.

From then on it is one grand argument and poor acting on the part of Mae, to determine just what her relations to George were in those hours she stayed in his rooms. Robard leaves her and she goes back to the stage—and it's not a good comeback except in the picture. A weak closing scene shows her in the arms of George after he has asked her to marry him.

Mae can stand another face lifting operation, more sleep, and a retirement from the screen unless they use a soft-focus camera at long-distance shots.

QUEEN 63 TODAY

Quiet Observance of Anniversary Held at Buckingham Palace.

By The Associated Press

LONDON, May 26—Queen Mary today celebrated her sixty-third birthday in the privacy of Buckingham Palace where all the family were gathered with congratulations and presents.

Most importance was attached to the visit of the grandchildren—Princess Mary's two sons and little Princess Elizabeth of York—whose presentation of gifts to grandma was made with impressive enthusiasm.

There was no national celebration except for the firing of artillery salute at London, Windsor, and naval and military stations.

FIRST ENTRIES FOR AIRPORT EVENT IN

Junior Chamber of Commerce Plans Dedication June 7, 8.

First entries in aerial events to feature the dedication of Marion airport Saturday and Sunday, June 7 and 8, have been received by Charles Whysall, chairman of a Junior Chamber of Commerce committee sponsoring the event.

Entry blanks were recently mailed to all Ohio airports, inviting pilots to enter ships in races and other events providing a full two day program for the dedication.

Between 40 and 50 ships are expected to participate in a number of 15 mile races. Ships will be classified according to horsepower and construction and raced in separate events. Marion boys will participate in a model airplane contest as one of the features.

Cups and trophies have been provided for winners of the events.

The Junior Chamber of Commerce and city officials are cooperating in the dedication of the port.

CHEAP BREAD CHEATS BOYS AND GIRLS

CHILDREN can't enjoy healthful happy growth on cheap food . . . particularly cheap bread, for bread is their most important food.

Children whose mothers thoughtfully serve Holsum are the children who lead in school and in play . . . not only because Holsum is extra nourishing but because mothers who know the difference in bread know everything else of importance in caring for children.

For extra wholesome nourishment, for full-value and true economy, hundreds are changing to Holsum.

Thousands have changed to Holsum. Have you?

THE NEW GENERAL

Blow-Out Proof Tire

More people are changing over to Generals than to any TWO *other makes of tires . .*

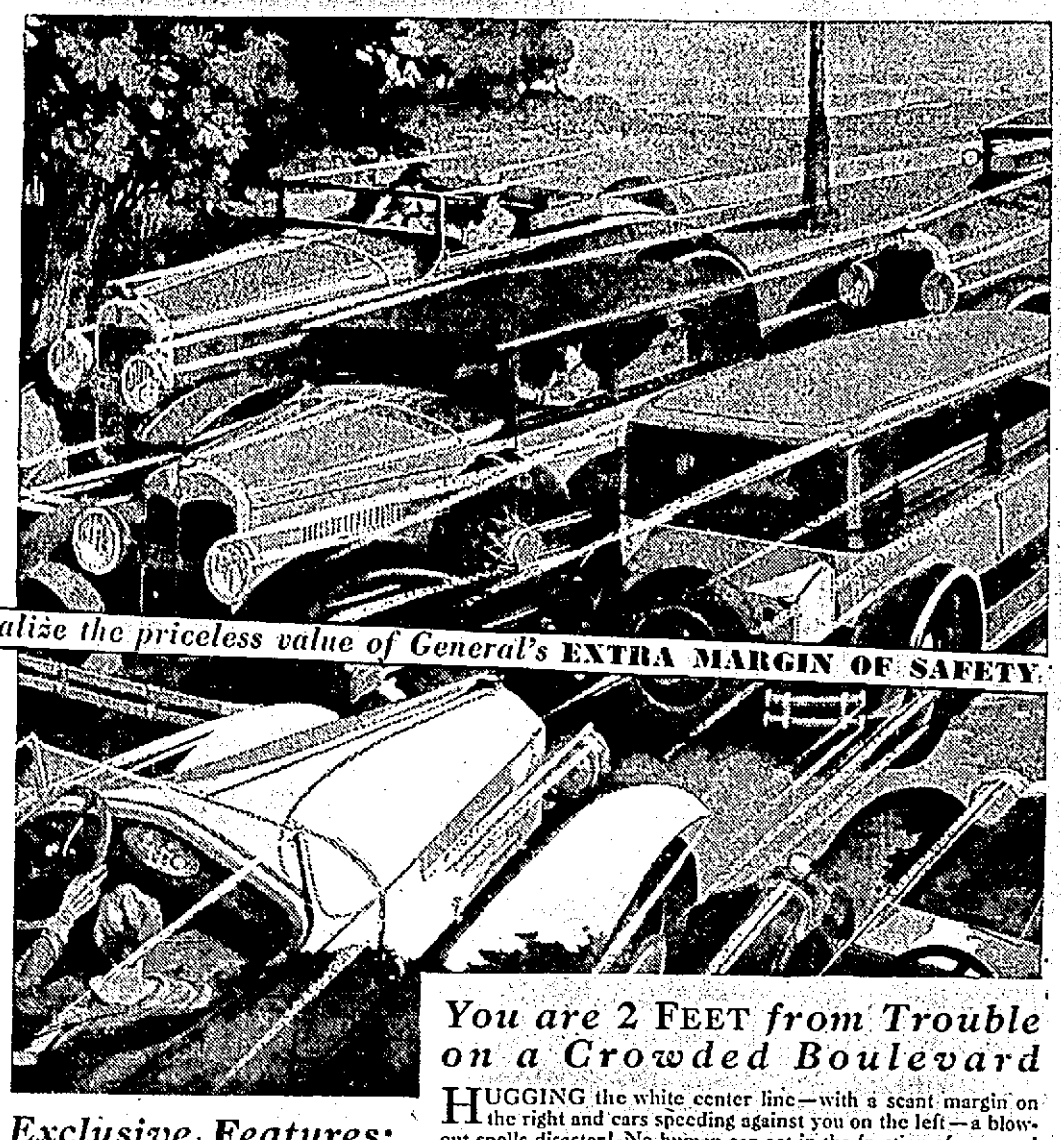
IN every part of the country, thousands of safety-seeking motorists are replacing their present tire equipment with the new Blow-Out Proof Dual-Balloon. Without qualification, it is the most important safety advancement in tire history.

You can't see a blowout coming. It hides under rubber that still looks good—and "blows" when you least expect it. A sudden swerve—a minor break in the pavement . . . a quick, hard push on the brake . . . it's that split second of tremendous strain that brings a blowout—and a crash. The very moment you *have* to trust your tires is the moment they fail you.

Split seconds that make you realize the priceless value of General's EXTRA MARGIN OF SAFETY

You never need risk your life again on doubtful tires. General's perfection of the Blow-Out Proof Tire gives you the absolute safety of freedom from blowouts . . . and far more.

The lowest pressure ever known, plus built-in rubber shock absorbers, give you easier riding with softer, closer-clinging traction. *Skid-safe* and *Blow-Out Proof* means full protection that lasts throughout the whole lifetime of its big mileage.



You are 2 FEET from Trouble on a Crowded Boulevard

HUGGING the white center line—with a scant margin on the right and cars speeding against you on the left—a blowout spells disaster! No human can act in the fraction of a second before you crash. Even at moderate speed—25 miles an hour—a blowout can swing you across that 2-foot safety margin in about one-twentieth of a second. It's a chance you need never take. Now you can be safe. The Blow-Out Proof Dual-Balloon protects you at all times from the daily hazards of present day traffic.

Exclusive Features:

1. Blow-Out Proof
2. Easier Riding
3. Extra Strength
4. Longer Life
5. Skid-Safe
6. Reduced Car Repairs
7. Saves Power and Gas
8. Easier Steering
